Plugin Overview

If your product is not live yet, this plugin helps you to redirect visitors to any page of your choice (squeeze page, facebook group etc).

At the same time, it allows you to create a “Sales Page Preview” link, that you can put under your JV page / Facebook groups etc, so your affiliates or partners are allowed to get see your sales page.

Installing The Plugin.

Installing the plugin is like installing any other WP plugin.

Step 1: Go to the "Plugins" section and click.

Step 2: Click "Add New" and Upload the included zip file.

Step 3: Activate it.

----- Intentionally Left in Blank -----

Using The Plugin.

Using the plugin is really easy.

First, create a wordpress page / post (or edit an existing one).

At the end of the document, you'll see a this...

Prelaunch Mode

Enable

Enable Prelaunch Mode?. If you enable this option, anyone who gets access to this page, to a different url of your choice (prelaunch squeeze page, facebook group page etc). IMPORTANT: Remember to disable this option when you go live.

During Prelaunch, Redirect Visitors To:

Enter a url that will be used during the prelaunch.

Preview Key For You and JV Partners:

Instructions: To see this page, add this secret key at the end of your page (permalink). You can use this for yourself and for your JV pages (so your partners can preview your page). Those who visit your page without a JV key, will be redirected to your prelaunch url.

From here, you'll be able to enable the "Prelaunch Mode".

If you enable it, anyone who gets access to this sales page, will be automatically redirected to the url of your choice.

Now, if you want to create a preview link of your sales page for your JV partners etc, just add the **preview key** at the end of your permalink (the url that belongs to your wordpress page or post).

For example, if your sales page is...

<http://www.yoursite.com/offerxyz>

And your secret key is ...

?previewme=9309sOFsfZOvR4vua1n9v

Your preview link for your JV partners will be ...

<http://www.yoursite.com/offerxyz/?previewme=9309sOFsfZOvR4vua1n9v>

You can add this link under your JV Page (example “Sales Page Preview”) etc.

Comment: In the Pro version (which you already have), you can setup additional redirection urls that you can use for different purposes (special dates like Christmas etc). Just save them there and activate them when you need to use them.

Final comment: remember to disable the prelaunch mode when you go live!

That’s all!
