After installing and activating the wordpress plugin, here's how to use the plugin below.

- 1) Upon successful activation, it will automatically create a new page "Submit a Link Request". You can use this page as is or add in to additional requirements for your link exchanges, see tips below.
- 2) Add the "Link Exchange" widget to your sidebar, header, footer, or whichever space is available with your theme.

The screenshot shows the 'Link Exchange: Partners' widget settings. It includes a title field with 'Partners', a 'Number Of Links' dropdown set to '10', a 'Font Face' field with 'sans-serif', a 'Font Size' field with '14px', and a 'Link Color' color picker set to blue. At the bottom, there are 'Delete' and 'Done' links, and a 'Saved' button.

***You can title it whatever you want, enter in # of links you want available for link exchange, pick font size and color. The link exchange widget will look something like this on your website:**

When a visitor clicks on the “Submit a Link”, it will take them to the request page which shows a form for submitting a link exchange request:

Your Email	<input type="text" value="email@example.com"/>
Your Anchor Text	<input type="text"/>
Your Link	<input type="text" value="https://example.com"/>
Link-Back URL	<input type="text" value="https://example.com/link-exchange"/>
Comment	<input type="text"/>
<input type="submit" value="Submit"/>	

- 3) Any time you get a link request, an automatic email alert will be sent to the admin. You can approve the link exchange request inside of you wp-admin dashboard “Link Exchange” area.**
